

E2 - Photos & Photo App

Index

- 1.0 Digital ePhoto Code
- 2.0 Certified Photographers & Photo Cabines
- 3.0 Photo Phone App ePhoto Code

1.0 1.0 Digital Photo Code

- digital ephoto code only lasts 6 months from the production date
- digital code can ONLY be used once where an application has been validated.

You will need to go to a Government approved photo cabine. You have a choice whether to obtain a code or post one photo (document to be downloaded at the end of application).

The cabines with a blue circle with Agréé Services en Ligne ANTS ephoto on the side of them have the facility to have your photos taken and sign digitally.

You will be issued photos with a 22 alphanumeric a code to be included in your application, this allows ANTS to upload them direct from this number.

The photos can sometimes take 24-48 hours to register on the system.

Quelle photo fournir pour un titre d'identité (passeport, carte d'identité...)
